

HeyGetOnMyLevel

Trust & Security Summary

For Prospective Customers & Enterprise Evaluation

Last Updated: March 2026 | Contact: privacy@time-2-read.com

What Is HeyGetOnMyLevel?

HeyGetOnMyLevel is a browser-based reading practice application that helps users of all ages (5–85+) improve reading comprehension, phonics, and vocabulary through AI-generated educational content. No account or login is required.

Licensing

HeyGetOnMyLevel is free for individual, personal, and educational use only. This includes personal reading practice, home use by families, and supplemental use by individual educators in their classrooms.

Commercial use, institutional deployment, white-labeling, embedding, redistribution, and integration into third-party platforms or products requires a written license agreement from Spry Labs. Unauthorized commercial deployment constitutes a violation of the Terms of Service and applicable copyright law.

To inquire about commercial licensing, contact privacy@time-2-read.com.

Privacy Architecture: Zero Personal Data

Our application is built on a zero-PII architecture — we do not collect, store, or process any personal information.

What We Collect	What We Don't Collect
Random session ID (UUID) — deleted on browser close	Names, emails, or contact information
Grade level selection	Age, birthdate, or demographics
Practice responses — ephemeral only	Location data or IP addresses for tracking
	Device identifiers or fingerprints
	Voice recordings (speech runs locally)

All session data is automatically deleted when the browser closes. There are no user profiles, no login credentials, and no persistent records of any individual's usage.

Security Controls

Control	Implementation
Encryption in transit	TLS/HTTPS enforced on all connections
Encryption at rest	Cloud provider encryption on database
Database access control	Row Level Security (RLS) on all tables
Secrets management	Platform-managed; never in source code

Input validation	Character limits, enumerated values, PII warnings
Incident response	Formal plan with severity tiers and 72-hour notification

Compliance Status

Framework	Status	Summary
GDPR (EU)	☐ Compliant	No personal data collected; Records of Processing maintained
CCPA/CPRA (CA)	☐ Compliant	No data sold or shared; explicit Do Not Sell statement
COPPA (Children <13)	☐ Compliant	No children's PII collected; no parental consent required
FERPA (Education)	☐ N/A	No student records maintained
U.S. State Laws	☐ Compliant	Covered by GDPR + CCPA compliance
LGPD / PIPEDA	☐ Compliant	No personal data processed
PCI DSS	☐ N/A	No payment processing
SOC 2	☒ Controls in place	Formal audit planned at scale (Phase 3)

Subprocessors

We use three vendors. No personal data is shared with any of them.

Vendor	Purpose	Data Access
Lovable Cloud	Hosting, database, serverless functions	Anonymous session data only
Lovable AI	AI-generated educational content	Grade level + content type requests only
Resend	Feedback email delivery	User-submitted feedback text only (max 500 chars)

Frequently Asked Questions

Do you have SOC 2? Not yet. Our zero-PII architecture minimizes risk surface. Security controls are in place. Formal SOC 2 audit planned for Phase 3.

Where is data stored? Lovable Cloud infrastructure. All session data is ephemeral — deleted when the browser session ends.

Do you sell data? No. We do not sell, share, rent, license, or monetize any data of any kind.

How do you handle deletion requests? No personal data exists to delete. Sessions auto-delete on browser close.

What happens in a breach? Formal Incident Response Plan with 72-hour GDPR notification commitment. No personal data can be exposed. Zero incidents to date.

Do you support DPAs? Yes. DPA template covering GDPR Article 28 obligations available. We also accept customer-provided templates.

Is this safe for children? Yes. No personal information collected from any user. Dedicated Children's Safety Addendum documents COPPA compliance.

Can we deploy this commercially? Commercial use, institutional deployment, and third-party integration requires a written license agreement from Spry Labs. Contact privacy@time-2-read.com.
